As part of the programs offered at through
NCI Works and the One Stop Center.....

*"I want to thank you for letting Praire
View Healthcare in on the summer work
program. This is a very good program
for young persons to get a start on
learning job skills. This also helps us
on jobs that we get behind on. Keep up
the good work and THANK you again.*

*Paul Ham
Director of Physical Plant Services*

*"This is a great way to help individuals in
our community by giving them skills that
they will be able to use for the rest of their
life and as our reward they work for us. I
saw the individual that worked for me
step up and become a responsible young
adult. She ended up being able to have
more responsibility than I had originally
given her. I also benefited in many ways
in that she worked very hard at her job,
produced quality work and was a positive
person to have around our
clients."*

“We list our openings with the Business Services Team because all the Employment and Training Agencies contribute to the recruitment. In addition, the interest and traffic flow would make it extremely difficult for our office staff to manage the flow.”
